

Large concrete slabs and street benches - Kuborn Square, Seraing, BELGIUM

Location: Seraing (BE)

Public Space

Project details

For the development of the Kuborn Square in Seraing Urbastyle supplied large concrete slabs, paving blocks, street benches and step units. The Kuborn Square in Seraing was the subject of a project coordinated with that of the new City Hall as an architectural ensemble interacting with the urban context. The majority of the square's surface is covered with light grey large concrete slabs and is structured by bands of anthracite concrete paving blocks, symbolizing the coal seams...
