

Achtersikkel, GHENT, BELGIUM

Location: Gent (BE)

Public Space

Project details

The Achtersikkel is a small square in Ghent, located near the Hoogpoort and the Biezekapelstraat, with buildings from the 14th and 15th century. For the renovation of this little square we produced custom-made seating edges and steps that meander across the square over different beams. At the bottom of the front lip of the bench, LED lighting has been incorporated to create a very special atmosphere. If you visit Ghent, don't forget to visit The Achtersikkel....
