

Custom made benches and planters with integrated LED Lighting, De Haan, Belgium

Location: De Haan (BE)

Public Space

Project details

Benches with integrated LED lighting and movable planters for De Haan. For the coastal municipality of De Haan we casted custom-made T-shaped benches. The benches not only have a T-shape, but are also curved and had to absorb a difference in level. At the bottom of the benches, a LED strip has been provided so that a downward beam of light illuminates the benches during the night and thereby contributes to safety on the square. In addition to these custom-made benches, beam-shaped...
