

Salta Bench, Lock/Sluis, Harelbeke, Belgium

Location: Harelbeke (BE)

Public Space

Project details

The Salta bench was created out of the desire to make an object that is beautiful to look at, while being pleasant to sit on. It is the result of a thorough research into the maximum reduction of material to create a stable structure that only leaves a minimal footprint on the public space. Studying the architecture of bridges, the designers have conceived a bench that seems to defy gravity. While it has a generous seating surface, the air flows freely below. Standing on...
